Artists in Cellophane (A.I.C.), the sponsoring organization of Art<sup>o</sup>mat<sup>®</sup> is based on the concept of taking art and "repackaging" it to make it part of our daily lives. The mission of A.I.C. is to encourage art consumption by combining the worlds of art and commerce in an innovative form. A.I.C. believes that art should be progressive, yet personal and approachable. What better way to do this, than with a heavy cold steel machine?
